

## CHAPTER 8: LIST OF PREPARERS

Name	Education and Experience	Primary Responsibilities
<b>Federal Highway Administration (FHWA)</b>		
Robert Dirks, P.E., Environmental Engineer	B.S., Civil Engineering. 10 years environmental experience.	Document review.
Matt Fuller, Environmental Engineer	M.S., Civil Engineering. 4 years environmental experience.	Document Review
Larry Heil Air Quality/Environmental Specialist	M.ENG Civil Engineering. 20 Years environmental related experience	Project management and Document Review
Janice Osadczuk Planner/Environmental Specialist	B.A., Biology, M.A., Ecology. 30 years environmental related experience	Document review.
<b>Indiana Department of Transportation (INDOT)</b>		
Tim Muench, Manager Project Management Section, Division of Planning and Production	B.A., History / Political Science. 11 years transportation related experience.	Project management, public and media involvement, and document review.
Robert F. Buskirk, Environmental Services Division of Planning and Production	B.S., Wildlife Management. 26 years experience reviewing EISs.	Document review, public involvement, NEPA, and Section 106.
Karl Leet, P.E., Urban and Corridor Management Division of Planning, and Production	B.S., Civil Engineering. 12 years of transportation experience.	Review and coordination of engineering and scoping issues.
Roger Manning, Roadway Safety and Mobility Division of Planning and Production	30 years experience in journalism, corporate communications, and public relations.	Overall project management, public and media involvement, and document review.
Ben Lawrence, PE Environmental Policy Administrator Division of Production Management	B.S. ChE, 8 years environmental experience	Supervisory document reviewer.
Brad L. Steckler, P.E., Roadway Safety and Mobility Manager, Division of Planning and Production	M.S., Civil Engineering. 18 years transportation experience.	Oversight of engineering assessment, alternative development, and traffic operation.
<b>Parsons</b>		
Richard J. Connolly, Environmental Planner	B.S., Environmental Management 1 year experience in NEPA documentation and impact assessments	Document preparation and review, impact assessment.
Steven J. Davidson, P.E., Project Manager, Transportation Engineer	B.S., Civil Engineering. 10 years experience in planning and design of roadway facilities.	Geometric design and analysis of alternatives.

Name	Education and Experience	Primary Responsibilities
Torger D. Erickson, P.E., Transportation Manager, Senior Transportation Engineer	B.S., Civil Engineering. 17 years experience in planning and design of roadway facilities.	Oversight of geometric design and analysis of alternatives.
Cory S. Grayburn, Deputy Project Manager, Senior Environmental Planner	B.S., Environmental Resource Management. 19 years experience in NEPA studies and impact assessments.	Project management, agency coordination, public involvement, document preparation and review, and QA/QC.
Nick O. Harrison, Transportation Engineer	B.S., Civil Engineering. 3 year experience in planning and design of roadway facilities.	Geometric design and analysis of alternatives.
Jason C. Hignite, Senior Environmental Planner	M.A., Natural Resources Management. 13 years experience in natural resource management/NEPA documentation and project management.	Environmental features maps, field reconnaissance and annotation, impact analysis, GIS, and document preparation.
Jill E. Hoffmann, Senior Environmental Planner	M.S., Environmental Science; Master of Public Affairs. 8 years experience in project planning and stakeholder/agency coordination, as well as biological field activities.	Field reconnaissance and annotation, impact analysis, GIS, document preparation, and public involvement.
Tony S. Pakeltis, Transportation Planning Manager, Senior Transportation Planner	M.S., Urban Planning and Policy. 13 years experience in environmental documentation, air quality and noise analysis, travel demand forecasting, environmental research and analysis, and comprehensive community economic and demographic analyses.	Traffic forecasting and modeling, and air and noise analyses.
Daniel L. Prevost, AICP Senior Environmental Planner	M.S., Urban and Environmental Planning. 8 years experience in transportation planning, environmental documentation, socioeconomic analysis, and public involvement.	Document preparation and review.
Timothy B. Selover, P.E., Transportation Engineer	B.S., Civil Engineering; Master of Business Administration. 12 years engineering experience. Involved with preparation of EISs including noise, air, accident, traffic, socioeconomic, and public involvement.	Air and noise analyses.
Susan D. Simkus, Transportation Planner	B.A., Business Administration. 8 years experience in transportation planning, traffic analysis and data collection, land use and comprehensive planning, and public involvement.	Traffic forecasting and modeling, and air and noise analyses.
Jay T. Simonds, P.G., Principal Geologist	B.A., Geology. 14 years experience in asset management, environmental remediation, hydrogeology, and environmental risk management.	Soils and geology, groundwater, and hazardous materials sites.

Name	Education and Experience	Primary Responsibilities
Matthew D. Weir, P.E., Transportation Engineer	M.S., Civil Engineering. 8 years experience in transportation engineering and planning, EIS preparation, corridor studies, and traffic analysis.	Overall project management, agency coordination, public involvement, document preparation and review, and QA/QC. Lead traffic engineer; data collection and traffic operations analyses.
<b>ASC Group, Inc.</b>		
Michael Striker, Principal Investigator	M.A., Anthropology. 13 years experience managing various cultural resources studies.	Archaeological field research, methodology, and QA/QC of reports.
Lori Thursby, Principal Investigator	M.A., Architectural History. 12 years experience managing various cultural resources studies.	Architectural field research, methodology, and QA/QC of reports.
<b>The al-Chalabi Group, Ltd.</b>		
Margery al-Chalabi, President	M.S., Regional Planning. 38 years of urban and regional planning, economic development and transportation planning.	Socio-economic forecasts and revisions, and census data analysis.
Suhail al-Chalabi, Vice President	M.S., Regional Planning. 38 years of urban and regional planning, economic development and transportation planning.	Socio-economic forecasts and revisions, census data analysis, and GIS.
<b>Doe Anderson</b>		
Kristen Jordan, Senior Account Manager	B.A., Communications and French. 5 years experience in Public Affairs: public involvement, media relations, and website management for various transportation projects.	Community and media relations, press releases and newspaper communications, and webpage development.
<b>Environmental Solutions &amp; Innovations, LLC</b>		
Virgil Brack, Jr., Ph.D., Principal Scientist	Ph. D., Wildlife Ecology. 25 years experience with natural environment and regulations, and bats and their habitat.	Indiana bat survey and documentation.
<b>Gibson &amp; Associates, LLC</b>		
Elizabeth Gibson, Chief Operating Officer	B.S., Psychology. Certified Economic Development Specialist. 27 years experience in community economic development, socioeconomic analysis, opinion surveys, research, and public involvement.	Public involvement (opinion survey of businesses along the corridor). Coordination and production of related deliverables.
